

Maintenance Engineer

Location: Middlemarch Business Park, Coventry

Contract: Full time, permanent

Hours: Monday to Friday 09.00 to 18.00

James Jones & Sons Ltd is a 5th generation family business and one of the UK's largest and most progressive timber processing companies with core activities in timber harvesting, sawmilling, pallets & packaging, and distribution. We employ more than 2,100 people based at 49 sites throughout the UK and Australasia. In the UK James Jones & Sons (Pallets and Packaging) Ltd manufactures up to 7 million new pallets and repairs up to 30 million pallets per annum across our 14 sites. Our pallet and packaging operation benefits from the most advanced manufacturing facilities in the UK, a national distribution network, and offers a complete range of pallets and specialist timber packaging.

About the role:

We are looking to appoint a mechanical bias maintenance engineer at our Coventry pallet inspection and repair site.

Reporting to the Site Manager, you will cover all aspects of mechanical equipment including reactive and planned maintenance inspections, overhauling equipment, monitoring plant conditions, reporting defects and diagnosing and repairing faults as they occur.

Key tasks and responsibilities:

- Working to a high standard of Health and Safety
- You will be carrying out mechanical preventative maintenance duties across the site
- Attending breakdowns
- Completing remedial correctives
- Improving the plants availability and reliability
- General maintenance of Chain conveyors, Power hydraulics, Pneumatics controls, Pneumatic tools, Bearings, Couplings, Gearboxes, Chain drives
- Some welding and fabrication
- Working with industrial automation equipment
- General factory mechanical maintenance
- Some electrical knowledge on fault finding and rectification would be preferred
- FLT Inspections
- Monitor and control spare parts needed to ensure production is not impacted by mechanical breakdowns
- Making improvements across the site to improve production output

- Other jobs outside of this scope of work may be required such as facilities maintenance

Qualifications:

- You must hold mechanical qualification (i.e. City & Guilds / BTEC / NVQ Level 3)
- Preferably apprentice trained with two years' experience
- Basic Computer skills
- Driving licence

Skills and Experience:

- Chain conveyors
- Power hydraulics
- Pneumatics controls
- Pneumatic tools
- Bearings
- Couplings
- Gearboxes
- Chain drives

Previous experience within an industrial production environment.

You must have the ability to communicate in English as well as comprehend written instructions.

Remuneration and benefits include:

- Weekly paid
- £15.95 p/hr
- 33 days annual leave (including statutory holidays)
- Company pension
- Health & Wellbeing services (remote GPs, mental health support, physio) * after 3 months
- Store discounts * after 3 months
- Life assurance cover * after 3 months
- Staff Canteen
- On site Parking
- Bicycle Rack / shelter
