

Gender Pay Gap Data for Snapshot Date 5 April 2025

James Jones & Sons Ltd is a long established family business with a commitment to the care and well-being of all its employees across the company, many of whom have been with us for over 40 years.

Where we are able to we offer employees flexible working opportunities to suit their personal circumstances and our recruitment policy is merit based with no gender bias.

We know that, traditionally, the timber industry has been a sector that has attracted relatively few women and we actively support the efforts of our forestry trade body, Confor, to encourage more women, and younger people in general, to enter what is a very dynamic and rewarding industry.
