

James Jones
& SONS LIMITED

James Jones & Sons Ltd Environmental Policy Statement

James Jones & Sons Ltd is a leading supplier of timber products in the UK. Timber is sourced in a sustainable manner and processed within sawmills utilising some of the most modern automated techniques in Europe.

Key products produced from the strategically located manufacturing plants include co-products, construction grades, palletwood, packaging materials, fencing and heavy sections. The Company is also the UK's largest producer and distributor of timber I-joists engineered wood products, JJI-Joists.

Our policy is to comply with all relevant environmental regulations, including related compliance obligations.

We are committed to:

- Ensuring that all timbers used are derived from sustainable sources and that sustainability can be verified by internationally accepted means.
- The continuous improvement of our environmental performance through the implementation of the international Environmental Management System (EMS) ISO 14001:2015.
- The development of meaningful environmental performance and evaluation procedures.
- The prevention of pollution via the control of all harvesting, production and related processes and the utilisation of best practice techniques where possible.
- The environmental assessment of new development proposals and major process alterations to ensure the prevention of pollution and compliance with the stated aims of the environmental policy.
- Ensuring that the use of energy is minimised and reviewed to enable environmental improvement where possible.
- Waste minimisation and the recycling of materials wherever possible.
- Providing all employees with appropriate on-going training to ensure individual and Company environmental responsibilities are managed competently.
- Providing accurate environmental information and advice to our suppliers, contractors and customers.
- Ensuring that specifiers of timber products are able to make accurate and informed judgements regarding environmental performance in comparison to competing products.

JAMES JONES & SONS LTD

Environmental Strategy

James Jones & Sons Ltd + timber sustainability

The importance of ensuring all timbers are derived from sustainable sources is a crucial part of our Environmental Policy. In recognition of our stated commitment to ensuring verifiable sustainable forest management, James Jones & Sons Ltd has been awarded both FSC and PEFC Chain of Custody Certification for all mill and JJI-Joist operations.

James Jones & Sons Ltd + environmental management

To ensure the legality and continuous environmental improvement of all harvesting and processing operations, James Jones & Sons Ltd utilise the International Environmental Standard ISO 14001:2015

Incorporating Harvesting, Mill and JJI-Joist Operations, third party certification enables sector leading environmental best practice to be set alongside technical innovations to improve our performance year on year.

James Jones & Sons Ltd + carbon accounting

James Jones & Sons Ltd continues to develop our established carbon model to ensure that improvements in energy use, including transport and kiln drying, are targeted and quantifiable.

Our life cycle assessment enables carbon negative cradle to gate supply tonnages to be calculated for all clients.

Our JJI-Joist Environmental Product Declaration enables a variety of key performance indicators to be measured against criteria including energy, water and biodiversity.
